LUBRIFICANTI PER MOTO / MOTORCYCLE LUBRICANTS

POWER-Tech STS SYNT 2T

Rev.3 del 07/2024

LEVELS OF QUALITY

POWER-Tech STS SYNT 2T lubricant is a synthetic base oil compliant with the following international specifications:

- API TC PLUS
- JASO FC
- ISO-L-EGD

DESCRIPTION

DuglasOil POWER-Tech STS SYNT 2T, made with a clever combination of synthetic components, can be used in motorcycle and scooter engines with automatic or separate mixing. Furthermore, it can be used in two-stroke engines installed on agricultural machinery and in two-stroke engines of grass cutters and chainsaws.
The particular additives used offer exceptional anti-scratch protection of the pistons, an effective anti-wear action and total protection against clogging of the spark plugs.

APPLICATIONS

The special formulation guarantees the perfect dispersion of the lubricant within the green petrol, improving combustion and engine performance.

The use of this product allows the following benefits to be obtained:

• Reduction of exhaust smoke
• Cleaner engine.

TYPICAL FEATURES*

Density at 15°C Kg/dm^3	ASTM D1298	0,860
Viscosity at 100°C cSt	ASTM D445	9,5
Colour	visive	amber
Flammability V.A.°C	ASTM D92	204
Pour Point °C	ASTM D97	-24

* The above-mentioned values are indicative of production average values and are not an integral part of the specification
